PROJECTS

Football Scouting App — Android

Mobile App Development | 2025

- Built a full Android app for football player scouting, stats tracking, and performance evaluation
- Designed and implemented UI/UX with smooth navigation and data management features
- Published and available on LinkedIn — demonstrating end-to-end app development capability
- Tech stack: Java/Kotlin, Android Studio, XML layouts

Personal Portfolio Website

Web Development

- Designed and built a responsive personal portfolio using HTML5, CSS3, and JavaScript
- Showcases projects, skills, and contact information with clean cross-device layout

PROFESSIONAL PROFILE

Computer Science student (5th Semester, COMSATS University) with hands-on experience in Android mobile app development and web development. Recently published a Football Scouting App on LinkedIn, demonstrating ability to design, build, and deploy real-world applications. Seeking a CS internship to contribute to live projects, sharpen industry skills, and grow within a professional development team.
